NO. 1693. — AGREEMENT BETWEEN GERMANY AND POLAND REGARDING MINING AREAS INTERSECTED BY THE POLISH-GERMAN FRONTIER. SIGNED AT WITOSLAW, JUNE 21, 1926.

POLAND, of the one part, and GERMANY, of the other part, being desirous of defining the position of mining areas on the Polish-German frontier, have decided to conclude an agreement on the subject. The Plenipotentiaries appointed for that purpose :

ON BEHALF OF POLAND :

M. Maciej KOCZOROWSKI, Representative of the Polish Government for negotiations regarding the Polish-German frontier, and
M. Bernard ZAKRZEWSKI, Engineer, Counsellor to the Provincial Government of Posen ;

ON BEHALF OF GERMANY :

Dr. Paul ECKARDT, Minister Plenipotentiary,

Have agreed upon the following provisions :

Article I.

1. Mining areas through which the Polish-German frontier passes shall, so far as their régime is not already defined by the Upper Silesian Mines Agreement of June 23, 1922, between Poland and Germany, be divided into separate, juridically autonomous areas, the frontier-line constituting the line of separation. The details of the procedure shall be governed by the provisions of Annex I to the Upper Silesian Mines Agreement.

2. Each area shall be subject to the authorities and the law of the country in whose territory it is situated.

3. Where the exploitation of the mines requires safety precautions covering the whole of the former complete area, administrative measures for both the separate areas shall be promptly taken by a joint decision of the Polish and Prussian Chief Mining Offices.

Article II.

The separate autonomous areas created by the tracing of the new frontier-line, in accordance with Article I, paragraph 1, may only be exploited by technical installations situated in the territory of the State to which the area belongs. Exceptions to this rule may be allowed by a joint decision of the chief mines authorities of both countries.

¹ Translated by the Secretariat of the League of Nations.

Article III.

In regard to other matters, the provisions of Articles IV-VI of the Upper Silesian Mines Agreement and the provisions of Annex 2 to that Agreement shall apply.

Article IV.

After the division provided for in Article I has been effected, the mining authorities of the country in whose territory the greater part of any divided area is situated shall be responsible for the safe-keeping of all deeds, documents, plans and registers relating to such area. Nevertheless, should the competent mining authority of the other country so request, copies, extracts and reproductions may be made and supplied to that authority at its expense.

Article V.

The present Agreement shall be ratified. It shall come into force on the exchange of the instruments of ratification, which shall take place at Warsaw as soon as possible.

In witness whereof the respective Plenipotentiaries have signed the present Agreement and have sealed it with their seals.

Done in duplicate in Polish and German, both texts being authentic.
